"Vula is both **the 'glue'** that holds the health system together and **the 'oil'** that helps it to work efficiently".

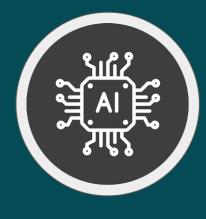

MAKING DATA VISIBLE

BEFORE AFTER

Better data = Better decision making

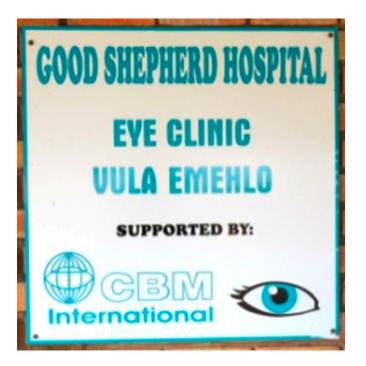

"You can't motivate for something if you can't prove it. Vula's statistics help us to improve our service. To see where the need is and see what we can do to plug the holes in the system."

"You can't motivate for something if you can't prove it. Vula's statistics help us to improve our service. To see where the need is and see what we can do to plug the holes in the system."

:

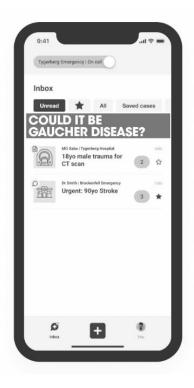

Vula is in the top 4 most innovative solutions globally improving access to healthcare
