Meaning of intelligence

*"The eye sees a thing
more clearly in
dreams, than the
imagination awake."*

Leonardo da Vinci

Human Rights

What Are Human Rights?

Human rights are rights inherent to all human beings, regardless of race, sex, nationality, ethnicity, language, religion, or any other status. Human rights include the right to life and liberty, freedom from slavery and torture, freedom of opinion and expression, the right to work and education, and many more. Everyone is entitled to these rights, without discrimination.
