The power of AI in enabling smart and sustainable living in Qatar and beyond

Dr. Hamid Menouar
Principal R&D and Innovation Lead
Qatar Mobility Innovations Center

World Summit AI Qatar 2024, 10-11 December 2024, Doha, Qatar

Qatar Mobility Innovations Center

Support National Strategies & Mega Projects

Core Technologies

- Internet of Things
- Artificial Intelligence
- Location Intelligence
- Embedded Sensing

Market-Focused

Data-Centric Platforms : from *data to smart applications & intelligence*

Domains

- *Intelligent Mobility*
- *Smart Cities*
- *Defense & Security*

Selection of our Solutions

Transport & Infrastructure	Road Safety	Events & Tourism	Smart Spaces	Environment & Energy
wamd	Connected Vehicles	wain	FALCON-I	humidex
	DRIVE SAFE	CAMS	UCOP	labeeb

What is a Smart & Sustainable City?

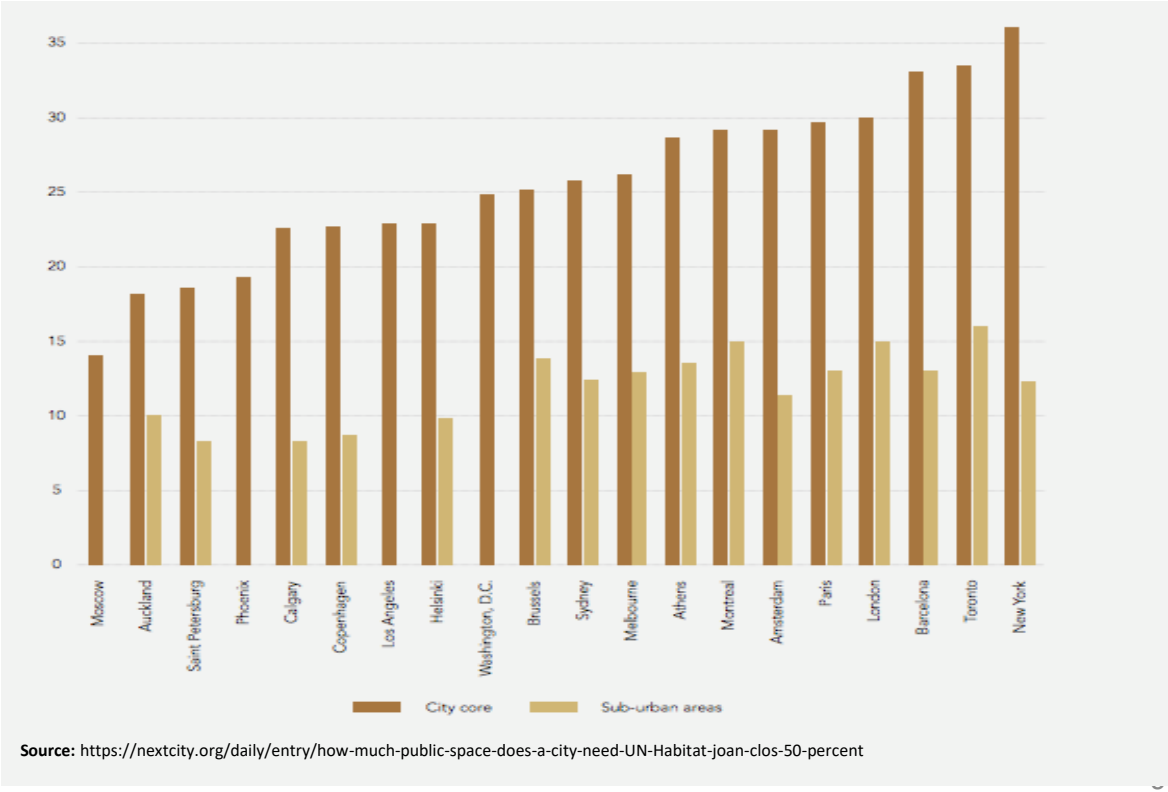
Using ICT to optimize limited resources

Limited Resources

CITIES ARE **DESIGNED FOR CARS**

30-35%

Land used for streets



Source: https://nextcity.org/daily/entry/how-much-public-space-does-a-city-need-UN-Habitat-joan-clos-50-percent

FALCON-I

AI Video Analytics to Enable Smart Spaces

Services Access & Management

- Dashboards, Reports, Alerts
- Integration with Other Systems
- Sharing Data with 3rd Parties
- Management Tools

Core AI Data Platform

- Multiple AI Models
- Data Engineering
- Applications for Different Domains

Data Sources

- Existing CCTV Cameras
- Cameras of Any Brand
- Aerial Videos
- Pre-Saved Videos/Images
